

Brass Tube - To - Pipe Adapters

Application

Because standard wrought copper fittings are soft and often required significant time and effort in rework to prevent leaks where the thread interfaces with pipe, we designed these products as a cost effective alternative. These high quality, precision machined fittings eliminate the need to apply layer after layer of Teflon tape to ensure that the joint will hold pressure and are rugged enough to remain leak free.

Features

- Male or female pipe thread connections
- Cup or fitting ends for brazing to copper tubing or fittings
- Flush brushing also available

Ordering Information

Part Number	Description
Adapter	Cup X Fnpt
288-821188	Adapter 1/2c X 1/2 F.NPT Brass
289-412072	Adapter 10 X 3/8 F.NPT Brass
289-412063	Adapter 10 X 1/2 F.NPT Brass
289-412064	Adapter 10 X 3/4 F.NPT Brass
279-821803	Adapter 1c X 1 F.NPT Brass
279-825208	Adapter 1 1/2c X 1 1/2 F.NPT Brass
